

# TallyPrime Units of Measure – Practice PDF

This practice PDF is designed for beginners to understand and practice Units of Measure (UOM) in TallyPrime Inventory.

## Practice Instructions:

- Enable Inventory Features in F11 (Features).
- Create Simple Units as given below.
- Create Compound Units using correct conversion.
- Create Stock Items and assign appropriate units.
- Verify stock reports.

## Practice – Simple Units

Unit Type	Symbol	Formal Name
Simple	Nos	Numbers
Simple	Kg	Kilogram
Simple	Ltr	Litre
Simple	Mtr	Meter

## Practice – Compound Units

Compound Unit	Conversion
1 Box = 10 Nos	Use Box as First Unit, Nos as Second Unit
1 Dozen = 12 Nos	First: Dozen, Second: Nos
1 Kg = 1000 Gram	First: Kg, Second: Gram

## Practice Task:

- Create Stock Item: A4 Paper – Unit: Box
- Create Stock Item: Sugar – Unit: Kg
- Enter Opening Stock using correct units
- Check Stock Summary and verify quantities
